 Pollachi

SUMMARY

I am eager to apply my technical skills and problem-solving abilities in a professional IT environment. With a strong passion for learning and innovation, I aim to contribute to impactful, real-world projects. I am seeking a role that offers continuous growth, meaningful challenges, and opportunities to make a valuable contribution to the organization.

EDUCATION

Shri vigneshwara matric hr sec school
10th 70% 2018
Shri vigneshwara matric hr sec school
12th 64% 2020
KIT-Kalaighnarkarunanidhi Institute of Technology Coimbatore
Master of Computer Applications - 74%
2023 – 2025
Sree Saraswathi thyagaraja college pollachi
Bachelor of Commerce -60%
2020 – 2023

TECHNICAL SKILLS

- Proficient in front-end technologies including HTML, CSS, Bootstrap, JavaScript, and React JS and framework Next JS
- Good understanding of MySQL database concepts and query writing
- Strong skills in UI design using Figma (Mobile App and Website Design)
- knowledge of Python programming
- knowledge in django framework
- Efficient in troubleshooting OS, network, and hardware issues.
- Basic understanding of networking fundamentals.

SOFT SKILLS

- Ability to deliver clear and friendly technical assistance
- Strong analytical and problem-solving skills
- Fast learner with the ability to adapt to new tools and technologies

LANGUAGES

- Tamil
- English

PROJECT

TK Info-Tech – Career Bridge Learning Institute
Technologies: HTML, CSS, Bootstrap, JavaScript

- Built a responsive career-focused learning platform.
- Implemented scroll effects, carousel, animated counters, and enquiry form using EmailJS.
- Designed user-friendly UI/UX with interactive program cards

Employee Request Management System
Technologies: React.js, JavaScript, HTML, CSS, React Router

- Developed a web-based system that allows employees to submit requests through an interactive form popup.
- Designed user authentication with separate Staff and Admin login access.
- Ensured smooth navigation with a clean UI and responsive grid layout.

Enterprise Asset Management System
Technologies: React.js, Flask (Python), MySQL, REST API, HTML, CSS, Axios

- Developed a full-stack web application to manage and track organizational assets efficiently.
- The system allows administrators to create, update, view, and soft-delete asset records along with managing supporting master data such as departments, locations, and asset track types.
- Implemented RESTful APIs using Flask and integrated them with a React-based frontend to perform real-time CRUD operations. Data is securely stored and managed in a MySQL database with proper validations and error handling.

CERTIFICATIONS

- UI Design – Lead Pro Infotech, November 2024
- Machine Learning with Python – IBM, Coursera, March 2024
- Fullstackdeveloper Workshop -Novi Tech
- OpenAI Workshop -KIT
